BEAUTY DOCTOR

Says the New Method Increases the Bust Measurement and Rounds the Arms and Neck.

(BY CLARA BELLE M.)

(From Chicago Examiner.)
"Speaking from my own personal experience and from observation of many whom I have successfully treated in the past two years, I should say that Madame Moneaux reality owed her great success as a backly expecialist to the use of a beauty specialist to the use of a simple preparation which is used exclusively to develop the bust, arms and neck. I became acquainted with this formula and have used ever since, much to the delight of

A woman—handsome, intellectual, ciever, good and courageous—battling against heavy odds for the honor of her beloved father—what could be more appealing to sympathy than this? Such is the character and such is the situation which have carried "The Lion and the Mouse" to success. Many there were at the Salt Lake theatre last evening who had seen the play before, but it is a drama which bears closer acquaintance than that of a single sitting. While the house was not so large as at previous performances in Salt Lake, it was appreciative and demonstrative.
